# UVOD

## 1. Korisceno:

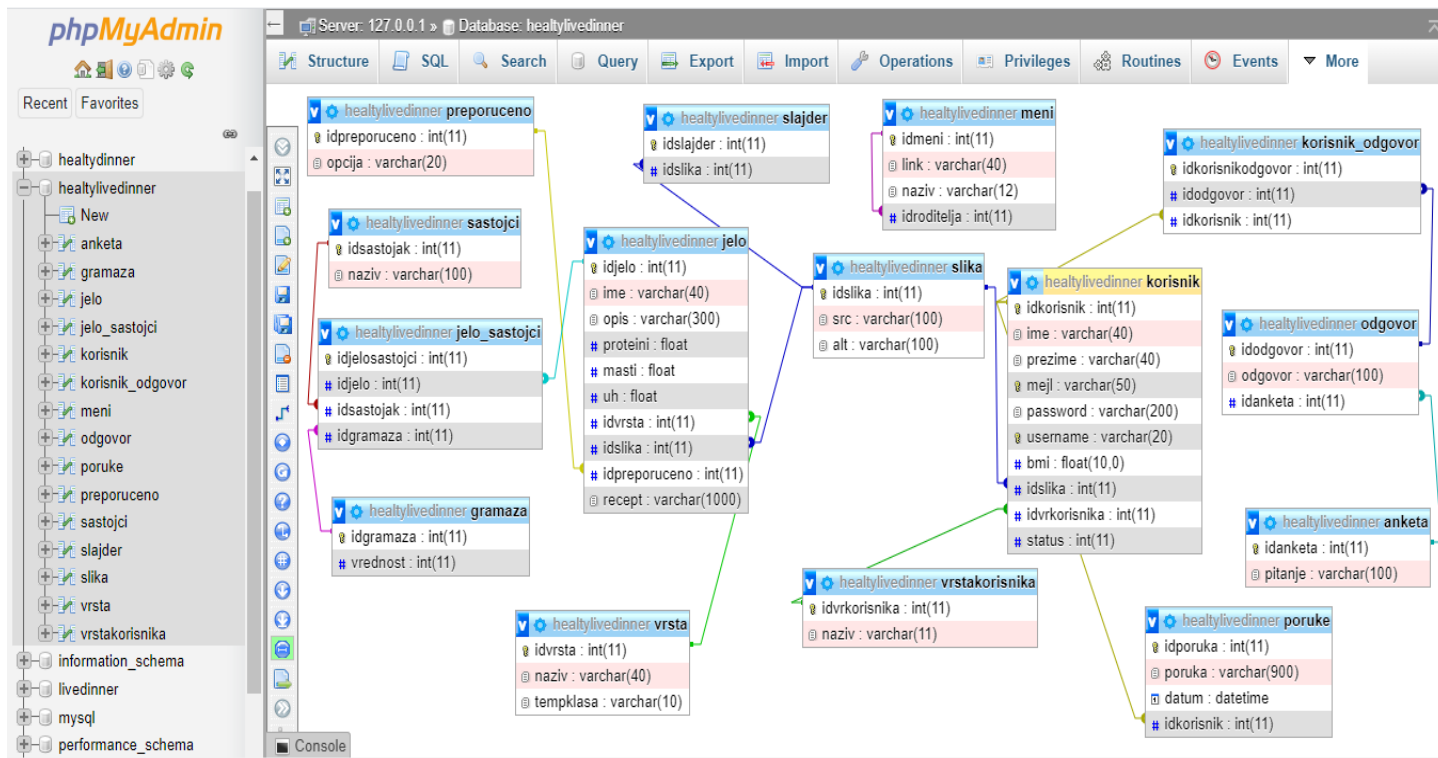

- HTML
- CSS
- JavaScript
- Ajax
- PHP
- Bootstrap

## 2. Funkcionalnosti:

- Dinamicki ispisani meniji, slajder, proizvodi, recepti...
- Filtriranje klikom na odredjenu kategoriju koja se proverava iz baze podataka
- Klikom na jelo izlazi blok u kome je slika, spisak sastojaka I recept
- Registracija
- Login
- Logout
- Prikazivanje odredjenih stvari u zavisnosti koj je korisnik ulogovan, da li je admin, korisnik, koj mu je bmi, anketa, prikaz ankete ako nije odgovorio I prikaz da je odg ako je odgovorio

- Admin panel-Brisanje, updatovanje I insertovanje nekih podataka, statistika ankete
- Pretraga
- Svi podaci izvuceni iz baze podataka

### 3. Dizajn baze

### 4. Kod

- Index.php

```

</div>

<div class="col-md-12">

<div class="inner-pt">

<p>Eat three healthy meals a day (breakfast, lunch, and dinner); it is important to remember that dinner does not have to be the largest meal.

The bulk of food consumption should consist of healthy foods, such as fruits, vegetables, whole grains, and fat-free or low-fat milk products.

Incorporate lean meats, poultry, fish, beans, eggs, and nuts (with emphasis on beans and nuts) into a healthy diet.

Choose foods that are low in saturated fats, trans fats, cholesterol, salt (sodium), and added sugars; look at the labels because the first listed items on the labels comprise the highest concentrations of ingredients.

Control portion sizes; eat the smallest portion that can satisfy hunger and then stop eating.

Healthy snacks are OK in moderation and should consist of items like fruit, whole grains, or nuts to satisfy hunger and not cause excessive weight gain</p>

<p>

```

Good health is not just the absence of disease or illness, it is a state of complete physical, mental and social well-being.

This means eating a balanced diet, getting regular exercise, avoiding tobacco and drugs and getting plenty of rest.

Our bodies are like machines that require a balance of protein, carbohydrates, fat, vitamins, minerals and water to stay in good working order.

Get the balance wrong and your health will suffer.

A balanced diet means eating only as many calories as you use during the day.

Any excess will be stored as fat if you eat more than you burn off.</p>
